Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 14 October 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- ☐ Other: _____.

DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed 1/5/04 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because it is not a proper 1449. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609 ¶ C(1).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 18-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Troitski (USPN 6,605,797).

Troitski ('797) discloses a laser computer graphic system for producing images (portraits and 3-D sculptures) inside an optically transparent material. Laser etching is

Art Unit: 1725

created in layers in order to prevent failure of the transparent material. Pulse energy and duration is selected based on the extent of decoration. The laser beam is focused by an optical system at a pre-set point inside the material, thus generating an etch point. One of the embodiments is based on the physical phenomenon that when the dimensions of an etch point are increased, its brightness is increased. All known methods of etch point production produce points, which lack color. In general, the etch points have an appearance like incident light, being various shades of brightness between black and white. In accordance with one or more embodiments of the invention, a method is disclosed which permits the production of an etch point (micro damage) which causes incident light (such as incandescent white light) to produce an iridescent light (i.e. light of many colors of the spectrum).

Troitski does not use the word tomography in the specification however the function is specifically described. Tomography is imaging by sections or sectioning. This is exactly taught by the reference with respect to the imaging of the etch points. (abstract, figures, col. 1, col. 3, col. 5, col. 7-10, col. 13, col. 15, col. 17-18, col. 20-21)

Response to Amendment

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
